Professional Summary

Full Stack TypeScript Engineer with over 2 years of professional experience building scalable web, backend, and mobile applications. Experienced delivering production software for startups, remote teams, and personal products from architecture through deployment. Strong background in Next.js, React Native, TypeScript, Node.js, Express.js, PostgreSQL, Supabase, MongoDB, Docker, CI/CD, Linux server administration, and cloud infrastructure.

Professional Experience

Full Stack Engineer | Chekwasy Businesses (TryBet & SafeBoard) | 2023 – Present

Lead development of production platforms including TryBet (<https://trybet.com.ng>) and SafeBoard (<https://safeboard.com.ng>). Designed REST APIs, authentication, leaderboards, cloud deployments, Docker workflows, CI/CD pipelines, PostgreSQL databases, React Native applications, and production infrastructure.

Full Stack Developer | Enterprise Metric Suite Solutions Limited | Victoria Island, Lagos | 1 month

Developed and maintained full-stack applications using Next.js, TypeScript, Node.js, Express.js and PostgreSQL while collaborating with software engineers and stakeholders.

Backend Engineering Intern (Remote) | PearlThoughts | India | 1 month

Built backend services with Node.js and Express, implemented APIs, database logic, and collaborated remotely with an international development team.

Operations Officer | Truck Transit Park Limited | 2021 – Present

Support operational reporting and technology-enabled logistics processes within the ETO ecosystem.

Key Projects

TryBet — <https://trybet.com.ng>

Prediction platform built with Next.js, React Native, Express.js, PostgreSQL (Supabase), Redis, Docker and CI/CD.

SafeBoard — <https://safeboard.com.ng>

Road safety and transport management platform using Next.js, Express.js and PostgreSQL.

Healthcare Appointment Platform — GitHub: <https://github.com/Chekwasy/health-typeorm>

Healthcare management system featuring appointment scheduling, JWT authentication, PostgreSQL, WhatsApp Cloud API integration and chatbot automation.

Technical Skills

TypeScript, JavaScript, Next.js, React, React Native, Node.js, Express.js, PostgreSQL, Supabase, MongoDB, Redis, Docker, GitHub Actions, AWS EC2, DigitalOcean, Ubuntu Linux, Nginx, PM2,

CI/CD, REST APIs, Tailwind CSS, TypeORM, WhatsApp Cloud API.

Education

ALX Africa – Software Engineering Certification (2024)
B.Sc. Economics Education – Michael Okpara University
ND Computer Science – Federal Polytechnic Bida
